Connecting and communicating life sciences in Scotland

Bioscience Club

Career Paths in Life Sciences

**Tuesday 20 April 2010
5.45pm, Sir Charles Wilson Building
University of Glasgow**

This event will highlight a range of career options open to life science graduates. Whether you are an undergraduate, postgraduate, PostDoc or young scientist in industry, you will gain insight from speakers working in a range of related professions.

Including: business development, marketing, clinical research, academia, commercial research & development, innovation funding, intellectual property law, teaching, laboratory management and company start-up.

For further information and to express interest in attending this free event, see

www.nexusScotland.com/events

Nexus is currently funded by the European Regional Development Fund and a number of Scottish organisations - see website for full details

Bioscience Club

The purpose of this event is to highlight the range of career options which are open to you with a life science qualification and to generally broaden your awareness of future prospects in life sciences.

Many people are unsure what to do with their life science qualification, but whether you are an undergraduate, postgraduate, PhD student, PostDoc or a young scientist in industry, there are a whole range of career paths you can pursue. Ten speakers from a range of life science professions will demonstrate the diverse range of paths open to you and explain what they do and how they arrived at their chosen occupations.

The evening will commence with an introduction by the Chair, Rosaleen McNeill, Director of Scientia Career Consulting Ltd, followed by a brief talk from each speaker, aimed at providing you with valuable insight into their different roles.
