

TPP Global Development

TPP Global Development is a start-up drug-development company, operating in the most exciting and novel areas of medical research. We aim to address the major unmet clinical needs in the fields of nervous system disorders, immunology and certain areas of oncology. TPP recently raised initial funding to implement a five-year plan of investments. Focusing on the preclinical stage of the drug-discovery process, TPP in-licenses novel intellectual property (IP) from universities and research institutes, and develops this IP into preclinical drug assets that are then sold to large Pharma / Biotech companies, or spun out into separate companies. We aim to form genuine partnerships with academic researchers throughout the UK and Europe in order to facilitate the successful translation of the most innovative and exciting ideas into safe and effective drugs. TPP is currently in the process of expanding its team, and seeks talented and highly-motivated graduates and PhDs who have an underlying passion for translational science.

Vacancy Description

TPP has a number of vacancies available for Project Analysts who will assess potential new drug programmes and monitor ongoing projects. Analysts will work as part of a scientific team and will be required to:

- Familiarise themselves with the backgrounds of a diverse range of projects in a comprehensive and in-depth manner
- Conduct meetings with academic researchers involved in projects
- Monitor and compile incoming data from ongoing drug programmes
- Prepare detailed summaries of programmes for presentation to TPP's Senior Management and Scientific Advisory Board
- Attend relevant scientific & medical conferences

The successful candidate will:

- Have a strong academic life-science background in a relevant field, e.g. molecular biology, biochemistry, pharmacology, etc
- Be a motivated team player and good communicator with excellent interpersonal skills

TPP welcomes applications from candidates holding a PhD and/or an undergraduate degree in a relevant area. This position will be based in Edinburgh, UK.

Benefits

We offer highly competitive salaries, depending on skills and experience. All employees will also benefit from enrolment in a private healthcare insurance scheme, and the option of a non-contributory, stakeholder pension scheme.

Application

If you feel your skills and background match the requirements outlined above then please submit a CV and covering letter to: recruitment@tppgd.com. The job code ATIG must be referenced in the email subject line. Applications will be reviewed on an ongoing basis so please apply as soon as possible. We will only be able to contact those candidates whose applications are being progressed to the next stage; such candidates should expect to be contacted within 2-4 weeks of submitting an application. For further information, please see: www.tppgd.com/careers.html
